It is with sadness that we advise of the passing of Stephen "Wilky" Wilkinson, a retired firefighter of the South Australian Metropolitan Fire Service.

Steve commenced his career with the MFS on 24 June 1968 and served until his retirement on 7 March 2007, completing almost 39 years of service. He spent much of his career at Adelaide Station and later undertook duties within Regional Operations. Steve gave many years of dedicated service to the MFS and was well known to colleagues across the organisation.

A private gathering will be held on Monday to remember Steve and reflect on a life well lived.
