~ Reunited with Gillian ~

(A private cremation for Douglas will be held, according to his wishes)

From Trevor Ward, he remembers (circa 1976) that Doug would ride his bike from Oatbank to North Adelaide Station no matter what the weather, he never saw him in a car. You can imagine what early mornings at Oatbank can be. He also recalls in his early days in Adelaide Station, Doug would get up early in the mornings to stoke the coke furnace for station hot water. Great bloke.

Some FB Condolences from Riverland Funerals.

Frost Carlene

Condolences to Doughlas' family and those who who knew him well.

Doug did a lot for GluepotStation in relation to the bird life. It was a passion he loved lots and would love to chat about.

Terry Butler

Condolences to all family. A good man remembered by all furies.

RIP DOUG.
